# MINING

***Exploration drilling, early mine camp development stage transport, mine commissioning and capital equipment relocation.***

The Rodair Mining Team channels our collective experience to provide customized transportation and distribution solutions for your specialty mining needs. We build our customer partnerships upon a framework of trust. Trust in our abilities to provide precise communication, timeliness and accuracy in our day-to-day interaction with every stakeholder.

From Northern Nunavut to Western Australia; oversized equipment or overnight replacement part transport, we can provide complete mining project management solutions.

Turnkey solutions from planning through delivery.
